The News.

The Persia, with three days later news from England, arrived at New York yesterday. She brings over 200 passengers and nearly a *million and a quarter* in specie. Breadstuffs were dull and rather lower; money stringent; and a severe panic in some of the Continental cities.—The cholera has made its appearance in England. From India there is nothing later.

The New York produce market was more active yesterday, without notable change in prices Money matters show a little improvement.

All doubt is dispelled about the result in Iowa The Republicans have carried everything by decisive majorities. In Minnesota the vote is so evenly balanced that it will need the official canvass to decide who is Governor.

There was rather more animation in our market yesterday; Club spring wheat selling at 88, and very choice winter, for milling, at 90. Money however, continues very scarce and Exchange on New York is only to be had in small quantities, at the Banks, at 5 per cent.

The Minnesota Frauds.

Our Minnesota exchanges continue to bring proofs of the astounding frauds committed by the democrats in their desperate determination to carry the Territory at all hazards. We have already alluded to the return from Pembina, where over 500 votes were made to order. In Manomin, a small district just north of St. Anthony, where but 35 men, all told, reside, the Democratic majority is over 100. At Fort Snelling, where but 15 voters reside, the Democratic majority was 74. On the Winnebago Reserve, over 300 Indians voted the straight Democratic ticket, and so of scores of other places.

The Mankato *Independent* says that at Rice Lake,

Some 75 Indians, glorying in paint and dirt, breech cloth, blankets, leggings and all, were marched up to the polls, and "put through," according to the most approved German standard.

Messrs. A. W. Bratt and E. L. Ayer, of this place, who were at the polls in that precinct during the day, are our authority for the statement. They inform us that these Indians who came to the polls were furnished with tickets by General Fletcher, the Agent, which they straightway deposited, an interpreter calling out the name of each Indian as he deposited his vote.

This is certainly an outrage upon the elective franchise which should not be tolerated.

More Frauds in Kansas.

Gov. Walker and Secretary Stanton, having set aside the returns of Johnson county, the Ruffians have commenced the game in other counties, in order, if possible, to secure a bare majority in the Legislature.

In McGee county, in the southern part of Kansas, on the Missouri border, they send in 1,202 votes, mostly from three precincts. The whole county probably contains 100 voters.—This counterbalances the vote of the other counties in the district, and elects the pro-slavery candidates.

In Marshall county, fifteen men are said to have cast six hundred votes, by walking around the house, in which the judges and clerks were, all day, and voting as they passed the window. The above two counties, with Leavenworth and Atchison, give fifteen representatives and four councilmen to the pro-slavery party.

It is rumored too, that other precincts which give Free State majorities are to be thrown out It is the intention of the pro-slavery party, no doubt, to secure the Legislature, if they can possibly do so. They will stick at nothing to obtain their ends, and make Kansas a Slave State.

ASSEMBLY NOMINATION.—The Republicans of the Fourth Ward, at their caucus last evening, nominated Mr. E. BUTTERFIELD, as their candidate for the Assembly. This is an excellent selection, and, if our Fourth Ward friends work as they *can* work, the nomination will be ratified at the polls.

Nominations

In Racine County, the Republicans have completed their Assembly ticket, by nominating GEO W. SELDEN in the 2d district, SAM'L COLLINS in the 3d, and JAS. CATLIN in the 4th.

The democrats in the same county have nominated H. WARNER in the 1st dist., J. A. HOBLICK in the 2d, and J. BIERSBACH in the 4th.

APPOINTMENT.—The President has made the the following appointment:

Samuel Ryan, of Wisconsin, Receiver of Public Moneys at Menasha, Wisconsin, in place of Benjamin H. Moores, resigned.

POST OFFICE REVENUES.—The following is the official statement of the revenue of the Post Office Department from postages collected during the quarter ending June 30, 1857, at twenty five thousand four hundred and sixty-one Post Offices—the quarterly accounts having been examined, audited, analyzed and registered in the office of the Auditor of the Treasury for the Post Office department:

THE LARGEST CABBAGE YET.—We have been presented by Mr. T. D. Cook with a cabbage raised in his garden, in this village, which is admitted by all who have seen it to be the biggest they ever did see. It is of the English drumhead variety raised from seed brought from England, and furnished by Mr. A. G. Hanford of this place. When taken out of the garden with all the leaves on, it weighed 22 pounds, and the solid head divested of the outside leaves, weighs 17½ pounds, and in the same condition it has a circumference of four feet and two inches.

We think this is the largest cabbage ever raised in Wisconsin. If any one can match or beat it, we would like to hear from them.—*Waukesha Rep*

Waukesha will have to try again. We saw, yesterday, two cabbages raised by Mr. OWEN ALDRICH, in the Fifth Ward of this city, one of which weighed *forty pounds*, with the leaves on, and the other, *twenty-five pounds*, divested of the leaves. We learn from Mr. ALDRICH that he has raised a number of cabbages in his garden, besides the ones above mentioned, which will outweigh the Waukesha specimen, and all raised from the common seed.

The Buffalo Earthquake.

From the Buffalo Commercial 24th

"These be parlous times." Already stricken by panic from causes above ground, the deep foundations of the earth have shaken beneath us, we have heard the roar of the pent up forces hid within that egg-shell of a world, and felt their billows roll along these dull ground That is, we have had an earthquake

About 3:14 P. M. yesterday—everybody knows the time, for it was just after bank hours—there came a shock, apparently from the south east, which people at once recognized as an earthquake. Those walking on the street did not feel it; those standing still felt the jar of the ground beneath them, and looked to see what furious driving omnibus made such a noise. But in buildings there was a fright. Those on the ground floor felt the jar and waving of the walls and saw crockery dancing on the dinner tables, china rattling in the closets, stove-pipes, in one instance, falling; while in another a dilapidated chimney parted with a few of its topmost bricks.

The farther up from the ground, the greater the shock. In fourth and fifth stories, there was a sensible tottering of brick walls, and tools rolled from the benches of workmen to the floor—There was a general scamper to the street, and for a moment all manner of questions about what hogshead of sugar had broken loose, what jibboom of a vessel had run into water street building, what fire-proof safe had fallen, what boiler had burst, or what powder magazine had blown up. But the borborygmous (look at the dictionary) mutterings from the bowels of our common mother—explained the thing, and all settle down on one conclusion—we had an earthquake.

CITY MATTERS.

THE CITY LOAN.—The *News* has announced that the Mayor obtained the money (variously reported at from $25,000 to $60,000) to complete our Harbor and School House, borrowing the same at 12 per cent. per annum; but on what security the *News* does not state. That veracious journal adds, however, that the Mayor would have got the money at 7 per cent. but for the *Sentinel!* This absurd and palpable fabrication has entirely discredited the *News'* story, and as the Mayor keeps his own counsel on the subject, the tax-paying public are left in a pleasant doubt as to the amount of the additional burthen *they* will have to shoulder.

In regard to the terms, &c., of the loan, the *Wisconsin*, which has a very tender regard for the city credit, publishes, without vouching for, the following rumor:

A U. S. official, who, in common with Mayor Cross, is a supporter of President Buchanan, has incidentally remarked that the City Bonds were sold at 80 cents on the dollar, and when the Mayor's discount expenses, and commissions are taken out, the city would net 38 or 40 cents on the dollar.

We have no idea that the Mayor made quite so bad a bargain, and indeed should not have copied such a story from any other source than the *Wisconsin*; which, as everybody knows, is exceedingly cautious about publishing rumors prejudicial to our city credit.

WALKER'S POINT BASIN DESTROYED.—We have received from Mr. YATES a long communication (for which we cannot find room in the crowded state of our columns) in which he takes exceptions to our remark that the dock at the junction of the Menomonee and Milwaukee River, which has been the subject of litigation is a "nuisance, however made, or whoever made it, or by whatever legal right;" and he thinks that we should rather sympathize with him, as having been the subject of a malicious prosecution, and as having the selling value of his property lessened, &c.

If Mr. Yates would but consider that we used the term 'nuisance' not technically, but in the signification of a something which is an annoyance, and the existence of which, in its place, is to be regretted, he will have less reason to take exceptions to our remark. Long ago, we expressed the hope that measures would be taken to ascertain who was the rightful owner of the property, the public or Mr. Yates; and if the latter, that the city should pay him for his rights, and clear out the basin. We do not see that any progress has been made yet in this direction. If Mr. Yates is, as he says, the owner, he has a splendid property, which the city could well afford to pay handsomely for. If he is not, then his dock is, as he will agree, in any sense of the word, a nuisance.

NOBLE HEARTED.—Mr. Henry Shaw, one of our retired men of business and wealth, intends to rent a vacant lot and fill it with wood, for the benefit of the suffering poor of the city this Winter. Who will imitate this noble example?—"The poor ye have always with you."—[*St. Louis Leader.*

The Poor, in all our large cities, will need a helping hand during the coming winter Individual charity goes a good way, but associated and carefully organized effort will be required, during the pinching times in prospect, to relieve the more pressing wants of our indigent population.

FESTIVAL AT ALBANY HALL.—A Festival is to be given at Albany Hall *this* evening, in aid of the City Hospital which the Sisters of Charity are building on the North Point. The walls are all up and the roof on, but more money is needed to fit up the interior. In those hard times money can only be raised in small sums, but if all who can spare a dollar for a most worthy object will buy a ticket for the Festival to-night, a handsome aggregate will be raised for the City Hospital.

THE WALKER HOUSE.—This Hotel is preparing for the "winter campaign." The Bar-room has just been handsomely papered, *a la militaire*, by J. J. McGRATH & Co., 21 Wisconsin Street. The Billiard Room is also undergoing thorough renovation and will be fitted with two new tables, from the well known manufactory of Messrs. DICKINSON & FIELD. The whole house is to be put in complete order, and offers to travellers the inducements of comfortable rooms, a well-provided table, civil attendance, obliging landlords and reasonable prices.

COAL FOR GAS.—The attention of Gas Companies in this city and elsewhere is invited to a sample of Pennsylvania coal, offered for sale by Messrs. BELL & LONGWORTH, on Huron Street, in the Excelsior Block, which is sold at less price, and is said to make more gas, than any coal yet brought here for that purpose. We judge, from what we saw of this coal yesterday, that it is quite as good as represented.

THE WEATHER.—The Clerk of the weather is mending his manners. He favored us, yesterday, with a moderate allowance of sunshine. The wind, however, was still easterly, and the air chill. But there was a promise in the western skies, at sunset, of more genial weather.

Meeting of the Board of Trade.

The following resolutions were passed by the Board of Trade of the city of Milwaukee, in relation to a Ship Canal around the Falls of Niagara, in the State of New York, and asking Congress to grant aid to construct the same.

WHEREAS, Congress have by numerous grants of Lands, aided the construction of various works of Internal Improvement, opening thereby the way for Trade and Commerce, and developing the varied resources of our country, and

WHEREAS, The liberal appropriation, so wisely granted for the construction of a Ship Canal around the Falls of St. Mary, in the State of Michigan, opens to the Commercial world, the mineral wealth, the timber, and valuable fisheries of the coast of Lake Superior, extending navigation for our largest vessels 500 miles, and forming a link in the frontier defences of our country, which, in a military point of view, and in the event of hostilities between the United States and Great Britain, will allow the concentration of naval and military forces at any required point upon our extended Lake coasts; and

WHEREAS, The Falls of Niagara now form the only remaining barrier to the uninterrupted navigation of our great chain of inland seas, upon which border nearly one-third of the States of our Confederacy, and in which nearly one-half of these United States are directly or indirectly interested, and among the cities that so numerously dot the shores of these lakes and rivers, not one is more interested in the speedy construction of the proposed work, than is the city of Milwaukee With its central location, its safe and commodious harbor, and rapidly increasing marine; with a large amount of tonnage engaged in the progressive trade between the lower and upper lakes paying tolls to a foreign power, and suffering all the inconveniences, detentions and losses occasioned by the narrow and contracted Welland canal, and its present overcrowded state, which is increasing from year to year. And—

WHEREAS, We conceive the construction of a Ship Canal around the Falls of Niagara, in the State of New York as a work of necessity, which the increasing trade of the West has demanded for the past three years, and completing, when done, the last remaining link in the navigation of our great chains of lakes and rivers, connecting our ports with the seaboard, and with the world, and perfecting the naval defences of the Northern boundaries of the nation. Believing these things to be true, and that the time has arrived when there should be the most earnest and prompt action by the numerous friends of the proposed work, and those of our city in particular. Therefore,

Resolved, By the Board of Trade of the city of Milwaukee that our Senators in Congress, and our Representatives, be respectfully, but earnestly requested to vote for the passage of a law, granting land to aid in the construction of a Ship Canal around the Falls of Niagara, in the State of New York, and to use all honorable means to obtain the passage of the same.

Resolved, That the President of the Board of Trade of Milwaukee, in the State of Wisconsin, be requested to cause copies of the foregoing preamble and resolutions to be made, and duly signed by himself and Secretary, and a copy be transmitted to the President of the United States, and to each of our Senators and Representatives in Congress. L. H. KELLOGG, Pres't.

W. E. HOLLAND, Sec'y.

REUBEN STRONG,
Dist. Committee.

DON'T FORGET TO VOTE!

Our State Election comes off on Tuesday next. But *four* working days, therefore, intervene, and in this brief space all necessary preparations for the contest must be made. Once more, then, we appeal to our Republican friends in the different Wards of the city to MAKE READY.—See to it that proper and timely provision is made for *a full supply* of BALLOTS, that two, or three reliable men are designated as CHALLENGERS, who will stand by the Polls *all day*, and keep out illegal votes; and that a good working Committee is selected to get out *the full Republican vote* and distribute tickets at the polls. All these *indispensable* preliminaries to a successful fight next Tuesday *should be arranged without delay*. REPUBLICANS of the different Wards! Look to this matter *at once!*

DON'T FORGET TO VOTE! As the polls are open from 9 o'clock in the morning till sunset, and are held at central points in the several Wards, there is ample opportunity for every qualified Elector to vote, without loss of time. The duty is one which *ought never to be neglected*. Every good citizen is *bound by his allegiance* to exercise the Right of Suffrage on each Election Day.

The qualifications of Voters in the State are as follows:

1. Citizenship, or Declaration of Intentions.
2. Twenty-one years of age, or upwards.
3. One year residence in the State.
4. Actual residence in the Town, or Ward, where the vote is offered.

REMEMBER, then, that *next Tuesday* is ELECTION DAY, and

DON'T FORGET TO VOTE!

Look out for Fraudulent Votes!

Remembering the atrocious frauds by which, in 1855, the partizans of Ex-Governor BARSTOW undertook to *cheat* that functionary into office—the not less glaring attempt in this city last fall, to swell the democratic majorities by imported and illegal votes—the notorious letter of Messrs. CROSS & LUDINGTON to the Superintendent of the Superior Railroad, bidding him bring all his hands to the town caucus in Granville, and to vote for the Cross Delegate to the State Convention—and above all, the recent unparalleled outrages in Kansas, where in a single precint of a thinly settled county, a fraudulent Democratic and Pro-Slavery majority of *sixteen hundred* was *deliberately manufactured*, and where kindred villainies were resorted to, in different parts of the Territory, to override the will of the people, and elect another *bogus* Legislature—remember-ing, we say all these things, all these high crimes against Republican Institutions, boldly perpetrated by the Sham Democracy, we call upon our friends, *one and all*, to prepare to *guard the ballot boxes* against any such frauds here; to watch for and repel all *illegal votes*; and to stand up, everywhere, for FAIR PLAY!

LOOK OUT FOR ILLEGAL VOTES!

The Fraudulent Party—Shall it Prevail?

It has come to that pass, in the history of this country, that one of the great political parties which have long divided it, holds its power by the perpetration of deliberate frauds upon the ballot-box, and if our Republican institutions are to be preserved, it is high time that the people put a stop to it. If we cannot rely upon a free and fair expression of the popular will by the ballot—if that expression is to be regularly nullified by the most deliberate and wanton frauds by the so called democracy, we may as well call our government a despotism at once.

The famous Plaquemines frauds in Louisiana in 1844, whereby some 35 men, going from New Orleans to one of its suburbs, cast 900 votes and gave the state to James K. Polk, was one of the first of those frauds, and from that time forward they have been the rule with that party. In Philadelphia last fall, thousands of votes, as has been *proved* in the courts, were manufactured for Mr. Buchanan, and the local officers, claimed to have been elected on the same ticket, have been ousted.

In this State—but why go over again the history of the disgraceful frauds, forgeries and supplements, by which Wm. A. Barstow claimed office, till ignominiously thrust out, by the exposure of the villainies of the canvass?

In California, the democracy practised the most systematic frauds, till the people rose in mass, and drove the leading scoundrels out of the State by force.

In Kansas, for two years, we have seen the pro-slavery democracy perpetrate the most wanton frauds, accompanied with robbery and murder, and the exposure of these things has only been met by the democracy in the states with sneers at the "Kansas shriekers," while within the last month the same party has attempted again the perpetration of just such frauds, to secure its ascendency.

In Minnesota, at the the election just held, frauds have again been the rule with the democracy, and if they are successful it is by fraud, forgery and perjury.

PEOPLE OF WISCONSIN! Do you mean to countenance such a party? Do you mean to restore to office the men, or their direct representatives, who disgraced our fair State in the eyes of the nation by their bold frauds? We *know* that you do not mean to do it—but *unless you poll a* FULL VOTE, such may be the result. Be warned in time; and by work at the polls, keep up, and increase, if possible, your Republican majority!

There are democrats engaged in concocting frauds in this State, whom no argument—no sense of shame, will reach. Place before such men—put in public places where they may read—the following penalties provided by the new Election Law. Then WATCH THE POLLS, and be prepared with the evidence to convict them:

PENALTIES FOR ELECTION FRAUDS.

For voting in a town or ward where a person does not reside, but in the right county, one to six months in the county jail.

For voting in another county, one to two years in State Prison.

For voting more than once, one to two years in State Prison.

For voting in this State, by residents of another State, one to two years in the State prison.

For voting when not qualified according to the Constitution, two to six months in county jail.

For procuring, aiding counselling or advising an unqualified person to vote, a fine of $100 to $500, and from one to six months in the county jail.

For procuring, aiding, or inducing a person to vote where he does not reside, one to three years in State Prison.

For procuring or inducing a person to vote or withhold their votes, by bribery or threats, a fine of $500 to $1,000, or three to twelve months in the county jail.

For deceiving voters who cannot read, into voting against their inclinations, or for deceitfully changing their ballots, one to two years in the State prison.

For inserting ballots fraudulently into the boxes, one to two years in the State prison.

For an inspector to place any ballot in the box, except his own, regularly received, three to five years in State prison.

Perjury to be punished according to the Statute, two to five years in State prison.

For Inspectors to knowingly receive or sanction the reception of votes from persons who are not qualified, or who shall refuse to answer the questions or to take the oaths; or to refuse to administer the oaths; or to act with wilful neglect, or corruptly, one to five years in State prison, or fine of $100 to $500.

For inspectors or clerks to make or aid in making false returns on poll books, or refuse to make returns, one to five years in the State prison.

For canvassers of votes to make false canvasses, or false certificates, or alter or destroy the canvass, two to three years in State prison.

Earning its Wages.

The *American*, is doing its best, in the way of "evil speaking, lying and slandering," to earn the wages paid it by the Barstow-Cross clique for this dirty work. Two columns in yesterday's issue are devoted to a rabid and mendacious attack upon the Republican party and to reckless and persistent vilification of Judge RANDALL. We copy the following paragraph as an average sample:

A. W. Randall, while Post Master, squandered all the public money that he received, in gambling and riotous living, and was a defaulter to the tune of $700. That his bondsman paid that amount for him, and with the assistance of our delegate in Congress saved him from the Penitentiary. That he has used his client's money collected for them and appropriated them to his own use. That he received $200 bounties—not corruption—to waive his claim for the United States Senatorship, a boast that he made to many of his friends. That judgments are recorded against him for monies collected for clients. That he acknowledges himself poor, with a family, and is willing to take $1,250 as Governor. That he has no object in view save anti-corruption and a contingent fund such as Bashford's $2,000 to steal from!

There can be no excuse or apology for the daily utterance of these malignant calumnies against a reputable citizen. No honorable man would stoop to fabricate such villainous libels against a neighbor. No decent newspaper would soil its columns by their publication—No honest, fair-minded Democrat will countenance such ruthless and ruffianly wadare. The like of it has never been seen in this State, and unless the spirit of the *American*, when it dies next week, trans-migrates to the *News*, we may well hope "never to look upon its like again."

NOT SO FAST, GENTLEMEN!—The Republican newspapers in this State and in Chicago, but no where else, as we have seen, day after day, have published what they pretended are returns from the Iowa election, which give the Governor and the Legislature to the Republicans. It may be that they have carried Iowa; but nothing has yet appeared that convinces us that they have; and the figures and statements which the *Sentinel* has printed were thrown together and fabricated in Chicago, perhaps to affect the election in Wisconsin. We have seen nothing to lead us to doubt of the election of Samuels, Democrat, to the Governorship, and a Democratic majority in the Legislature.—*News* of yesterday.

The *News* is an exceedingly "slow coach," and unreliable at that. It may not have seen the figures which prove that Iowa has gone republican, because "none are so blind as those who *will* not see." But the *fact* is indisputable and *after* election, the *News* will admit it. Meantime, it will stick to the opposite story, in order to "affect the election in Wisconsin."

The returns published by us, instead of being "fabricated in Chicago," were taken from the Iowa papers, and the result as to the Legislature [showing a handsome Republican majority in both branches] is derived from the Secretary of State himself, writing from the Capital of Iowa.

A NEW GAME.—The Lawrence *Republican*, of the 22d, says "Judge Cato has issued a mandamus to compel the Governor and Secretary to give the certificates of election to the pro-slavery candidates in this district."

Is this a new step in the game of fraud practised by the pro-slavery democratic leaders in Kansas. Is it that Walker should, to save the credit of his party in the northern elections, pretend to denounce the late frauds, and refuse to count the returns, and then yield gracefully to the mandate of the Border Ruffian Judges?

GREAT WESTERN RAILWAY—SARNIA BRANCH—DETROIT & MILWAUKEE RAILWAY.—The semi annual report of the Great Western Railway shows that the road has been operated at about 12 cents less per train per mile than for the preceding six months, and the cost of maintaining the permanent way is less by £1,138 per mile.

The expenditure on the Sarnia Branch was about $1,500,000 up to August 1st, 1857. The road bed, bridging, station buildings, &c., are nearly completed, and will be finished by the end of the present year. The rails provided by the contractor for that line have reached Canada; but part of these, owing to the failure of some of the iron on the opened lines, mentioned in the last reports, are being used for relaying the main lines as required, and the quantity so made use of will be replaced by new iron to be shipped from England next year. This arrangement will defer the opening of the Sarnia line until next year.

The report further says:

The Detroit & Milwaukee is now open to Ionia —127 miles from Detroit, and only 35 miles from Grand Rapids, to which city the trains will be running during the month of December next—By the spring of next year the line will be completed to Lake Michigan, and then a direct communication will be opened with Milwaukee and the States of Wisconsin and Minnesota, affording to that vast and highly productive territory a saving of upwards of 100 miles in the distance to the seaboard, to be still further reduced by 50 miles on the completion of the Port Huron and Sarnia branches. The accession of traffic to this Company from the opening of the entire length of the Detroit & Milwaukee Railway must be very considerable.

Look to the Treasury!

The Madison *Journal* calls attention to the fact that the Annual Report of the State Treasury, which by law is required to be presented to the Governor by the 10th of October, was not presented till the 26th, and adds;

It is high time that the affairs of the Secretary's and Treasurer's Departments were looked over by some more scrutinizing eyes than those of the Barstow Democrats. The nomination of Mr. Habich in particular, looks bad. It has the appearance of a determination to keep that department in the hands of those who have controlled it since the close of Mr. Fairchild's term. Habich is in the regular line of promotion from Dan Seaver and Jansen. He knew all about the fraudulent and corrupt practices in the Treasury formerly. He withheld that knowledge from the public till it was forced from him under the solemnities of an oath, and the coercive process of a legislative investigation. Do the people desire to entrust to such a man the care of all the public moneys of the State? Remember the lesson of the past. Be warned in time. LOOK TO THE TREASURY DEPARTMENT! It is too hard times to pay taxes to be embezzled by careless or dishonest officers. The surest method of avoiding this is to elect honest men. Vote for SAMUEL D. HASTINGS for Treasurer, and JOHN L. V. THOMAS for Secretary.

GOV. WISE IN TROUBLE.—A bright-looking young mulatto, says an exchange, passed through Oswego, on the underground railroad, on Saturday, and is now (doubtless "safe in the arms of the British lion." He was the coachman of his Excellency Henry A. Wise, of Virginia.

Correspondence of the Sentinel.

The Superintendent of Public Instruction.

MR. EDITOR:—It augurs well for the interests of education in our State, that so much consideration is given, during the present political campaign, to the candidates for the office of State Superintendent of Public Instruction. The signs of the times indicate that the people are waking up in some degree to the amazing interests that cluster around our Public Schools.—This is well. We cannot look too closely to these numerous institutions in which our future citizens are now being educated.

You will allow me, as one interested in the cause of education, and for the past eighteen years, more or less intimately connected with the schools of our State, to speak through your paper, at one of these candidates whose names are before the people for their suffrages at the approaching election. This one is Mr. MCMYNN. Having known him for the past eight years, and during three and a half of those years, having been associated with him in the public schools of Racine, I can speak of him from actual knowledge, derived from personal observation.

His education is ample and thorough. He is a regular graduate of William's College, in Massachusetts, and he has been engaged in teaching ever since his graduation, which is now some eight or ten years. So that in addition to book learning, he has the experience of an actual educator.

He is eminently devoted to the work of educating, as his labors both at Kenosha and in Racine, and at other places as he could be spared from his post of duty in the school room, most abundantly testify. No one, I think, can associate with him even for a brief time, either in the school room, or elsewhere, without the conviction, that he has a good and practical knowledge of his profession, and that his soul is enlisted in it.

He is also a man of great energy and perseverance; prompt at the call of duty, and meeting difficulties with a firm determination, he uniformly wins success. Of this, the reputations of the schools with which he has been connected, are ample vouchers. Besides, in his association with other teachers of the State, he has already done much to quicken the pulse of educational life, and even now remote districts are feeling a glow of warmth, caused by his labors and influence among them.

For these and other considerations which might be mentioned, it is greatly to be desired that the people of our growing State will call him to the post of Superintendent of Public Instruction. No one among us is better fitted for it.—We claim not for him perfection; nor absolute freedom from all liability to err; but we do believe that he will prove himself to be a man worthy of the People's confidence in this matter, and should they place him at the head of the Public Schools of this State, the benefit will be theirs and their children's, and not his

Parents and educators, and guardians of childhood, let me invite you to look to the interests of your schools. M. P. KINNEY.

RACINE, Oct. 25, 1857.

Is there a Change?

The people of Wisconsin gave last fall a majority of nearly 14,000 for the Republican ticket, thus exhibiting their attachment to the principles of Freedom. They repudiated the Sham-Democracy, for their subserviency to Slavery, especially as shewn by their conduct in relation to Kansas. Has the "democracy" changed any since that time? Look at the following record, from the N. Y. *Tribune*.

We have again seen Kansas denied all relief from her crying oppressions, and turned over to the unrestricted rule of the Ruffians who have harassed, abused, plundered and murdered her peaceable citizens for no other crime than that of seeking to make her a Free State.

We have seen the elect of the Border Ruffians admitted to the floor of the House as her Delegate, with a full knowledge that he and his backers were repudiated and abhorred by three-fourths of her real citizens.

We have seen the Federal offices apportioned by James Buchanan among the most violent and bloody of the oppressors of her People—among those who were conspicuous in the sack of Lawrence, ravage of Leavenworth and the burning of Osawatamie—the wanton murderers of Barber and William Phillips receiving large allotments of the Democratic "spoils."

We have seen Gov. Geary hunted out of Kansas because he began to evince sympathy with her oppressed People and a desire to rule impartially, and Robert J. Walker appointed in his stead.

We have seen this Walker stumping the Territory from end to end, urging the People to vote for Territorial officers, and solemnly assuring them of a fair election, while the Democratic journals of the Free States took up the chorus and every where cried—"Why don't the Free State men vote, "and redress their own grievances, if any they "really have?"

We have seen the greater number of the Free State men, against their own convictions of what was proper and safe, prepare for and take part in the Territorial Election, having been excluded from that for a Constitutional Convention by a most scandalous Registry, which excluded the great bulk of them from the polls.

We have seen this same Gov. Walker, who had helped bully the Free State men into offering their votes to the bogus Election officers who owe their position to the grossest frauds in which they actively participated, himself appear at the polls as a vote-peddler for Sham Democracy, after having traversed the whole Territory as a canvasser in its behalf, and himself urged and superintend the voting of U. S. soldiers, in express defiance of both the Kansas-Nebraska act of the bogus Territorial "laws," which so has been commanding the Free State men to obey under the penalties of treason.

We have seen this Federal Governor not only abet and approve the voting, under his immediate eye, of hundreds of well-known Missourians at this Kickapoo poll, but himself urge Thomas Herndon, a Missouri slaveholder, to vote there, well knowing him to be no resident of Kansas, and, when refused and rebuked by that Missourian, ask him to say nothing of the matter.

We have seen this Slave Democracy of Kansas, though drenched in Federal patronage, backed by a large Federal army, and re-inforced by two or three thousand invading ballot box stuffers from Missouri, fairly beaten out of Kansas by the overwhelming Free-Soil sentiment of her People, which has elected Marcus J. Parrott to Congress, with fully two-thirds of the new Territorial Legislature.

We have seen this Slave Democracy, with the Federal functionaries at its head, thereupon resort to direct and glaring fraud in manipulating the returns; and, by the impudent claim of *eighteen hundred majority* in the Indian reserve County of Johnson, where less than five hundred persons voted in all—and four fifths of these came in from Missouri on purpose—attempt to reverse this overwhelming verdict of the People, and fabricate another bogus Legislature to oppress and enslave that People. For, if this claim of eighteen hundred majority in a County where no legal voters are or lawfully can be is not scouted, Kansas is once more cast bound hand and foot at the feet of the Slave Power.

MONROE CO. AGRICULTURAL STATISTICS.—The Sparta *Freeman* brings the figures from nine towns of Monroe County in this State. The amount of wheat raised in 1856 was 28,000 bushels—average 18 bushels to the acre; of corn 50,000—average 32 bus; of oats 48,000; of butter 3,000 lbs.

The other towns in the county made no returns, but the above aggregates are pretty fair for a new county which contained only 2,400 inhabitants.

THE FAILURE OF THE POTATO CROP IN ENGLAND.—The London *Star* of Oct. 6 says that the anticipations which had up to that time prevailed of a plentiful crop of potatoes in that country had been suddenly dispelled. The Star says:

"Within the last few weeks, however, the rot has manifested itself in the most extraordinary manner. Hundreds of acres will not pay for the digging, as the potatoes, although looking very well when first taken out of the ground, in 24 hours are unfit for use. Unfortunately this sudden manifestation of the disease is not confined to any particular district, but seems very general. This is very sad intelligence for the poor, as it will practically put this valuable esculent beyond their reach. Fortunately, however, we have had a plentiful harvest."

NEW HOTEL.—The new Hotel at this place is nearly ready for occupancy, and will probably be opened next week. Messrs. Stroud and Righter are the lessees. This hotel is greatly needed, as the public houses here cannot accommodate all who desire accommodations.—*Kilbourn City Mirror*.

German Meeting last Evening—Speech of Carl Schurz.

CARL SCHURZ, the Republican candidate for Lt. Governor, addressed his countrymen, in the German language, at the Court House, last evening. There was the largest attendance of Germans ever witnessed at any political meeting here. Mr. KUTZBACH was called to the chair.

Mr. SCHURZ addressed the meeting in regard to the great national issues upon which the Republican party is founded; and urged upon his countrymen the moral duty which rests upon them to vote with the Republicans as the only party in the field pledged to the support of free labor, and against the extension of slavery.

The lucid and conclusive exposition of Mr. Schurz had opened the eyes of a good many of our German citizens, and quite a number who have hitherto acted with the Democratic party, expressed their determination, at the close of the meeting, of voting the Republican ticket. Mr. SCHURZ is doing a good work throughout the State.—*Madison Journal*.

Too Steep, even for Buchanan's Sepulchre.

The *Republican* has a proclamation issued by Walker and Stanton, Governor and Secretary of the Territory of Kansas, pronouncing the 1600 votes cast at Oxford precinct, in Johnson county, fraudulent and illegal. This gross and outrageous fraud was too plain and palpable, even for the miserable tools of the pro-slavery party.—Walker himself, induced the soldiers to vote in defiance of the organic law and statutes of the territory. He was present at the polls in Kickapoo, where seven or eight hundred votes were polled by a population not containing more than three hundred voters. This he permitted and encouraged; but 1600 votes in a voting population of one hundred was not to be tolerated even for Isothermal, *especially as he was fully notified by the free state men that they were prepared to resist this outrage to the last extremity.*—Walker admits this in his proclamation, and the correspondent of the *Republican* shows most conclusively that this was what brought Walker to his senses. It was the knowledge that preparation was made to resist to death the attempt, to which Walker was himself privy, of carrying the Kansas Legislature by another infamous fraud, that compelled him to desist from the attempt, and exclude the vote of Johnson county.—*St. Louis Democrat.*

A SIGN OF THE TIMES.—During the delivery at Madison of Carl Schurz's great speech—a speech that none but a statesman and patriot could have made—he made use of the following language:

You may object, that when the re-opening of the slave trade was being discussed in the Southern States, it found considerable opposition, and has been abandoned. I tell you it has not been abandoned. They have but thrown out their feelers; they say that their time had not come yet, but they will watch their opportunity. Are not, this very moment, newspapers being established in the South for the express purpose of advocating the reopening of the slave trade? When Congress shall have formally sanctioned the right of slaveholders to spread slavery all over the property of the United States, and when thus a new and immense field for slave labor will have been opened, then the moment will have arrived, and the effort will be made.

Will the Northern Democracy acquiesce in this also? There is certainly not one Democrat present, who has courage enough to say "aye!"

Here Mr. Schurz was interrupted by Mr. August Kruer, who cried out "AYE!"

Mr. Schurz—I venture to say that the gentleman who responds "aye," is the most extraordinary specimen of Northern Democracy extant. [Great laughter and applause.]

The Mr. Kruer, who thus avowed his entire willingness to follow the Democratic party to hell and support a measure that one would think a nineteenth century devil would be ashamed of, is the editor of the Staats Zeitung, a Democratic newspaper published at Madison.

Comment on that is unnecessary.—*Waukesha Rep.*

NATIONAL CHESS CONGRESS.—This unparalleled feat of playing five blindfold games at chess simultaneously, was brought to a conclusion at, midnight on Thursday. Four of Mr. Paulsen's opponents resigned, being within a few moves of check-mate. The fifth board, presided over by Robert J. Dodge, Esq., resulted in a draw. But it is seen for an oversight on the part of S. Delbuth, Esq., he would have had the honor of vanquishing Mr. Paulsen. As it was, he fought with the determination of a Leonidas, but too much confidence brought about his discomfiture. Mr. Oscanyan's game, as also that of Mr. Frere, were well conducted on their part, but their adversary was one too many for them.

Mr. Paulsen was not in the slightest degree fatigued with his exertions, and states that he could just as well play six or seven games at a time as five. The members of the Congress doubt whether there be any limit to his powers, and with reason.—*N. Y. Tribune*

RAILROAD BRIDGE.—The Railroad Bridge at this place is nearly completed; and they are today [Monday] laying the track over it, so that the cars can cross this afternoon or to morrow morning. It is a grand structure, firm as the rocks; and we shall be happy, [if we get a chance,] to ride over at the first crossing. We think we will give a description of the Bridge next week.—*Kilbourn City Mirror*, Oct. 27.

Eloquent Extract.

HON. EDWARD EVERETT delivered the address at the late fair of the N. Y. Agricultural Society at Buffalo. We copy the following eloquent extract from the Buffalo *Express*:

It belongs to us, favored with a knowledge of the spiritual relations of the universe not vouchsafed to the heathen world, to look upon agriculture in higher aspects, especially in the advance of life; and as we move forward ourselves toward the great crisis of our being, to catch an intelligent glimpse of the grand *arcana* of nature, as exhibited in the creative energy of the terrestrial elements,—the suggestive mystery of the quickening seed, and the sprouting plant;—the resurrection of universal nature from her winter grave.

A celebrated sceptical philosopher of the last century—the historian Hume—thought to demolish the credibility of the Christian Revelation, by this concise argument: "It is contrary to experience that a miracle should be true, but not contrary to experience that testimony should be false." The last part of the proposition, especially in a free country, on the ears of a popular election, is, unhappily, too well founded; but in what bookworm's dusty cell, tapestried with the cobwebs of ages, where the light of real life and nature never forced its way;—in what pedant's school, whose dead ears listen to dumb lips, and blind followers are led by blind guides,—did he learn that it is contrary to experience that a miracle should be true? Most certainly he never learned it from sower or reaper,—from dumb animal, or rational man connected with husbandry—Poor Red-Jacket off here on Buffalo Creek, if he could have comprehended the terms of the proposition, would have treated it with scorn. Contrary to experience that phenomena should exist which we cannot trace to causes perceptible to the human sense or conceivable by human thought! It would on much nearer the truth to say that within the husbandman's experience there are no phenomena which can be rationally traced to anything but the instant energy of creative power.

Did this philosopher ever contemplate the landscape at the close of the year, when seeds, and grains, and fruits have ripened, and stalks have withered and leaves have fallen, and winter has forced her icy curb even into the roaring jaws of Niagara, and sheeted half a continent in her glittering shroud, and all this teeming vegetation and organized life are locked in cold and marble obstruction; and week upon week and month upon month have swept with sleet, and chilly rain, and howling storm, over the earth, and rivited their bolts upon the door of nature's sepulchre;—when the sun at length begins to wheel in higher circles through the sky, and softer winds to breathe over melting snows,—did he ever behold the long hidden earth at length appear, and soon the timid grass peep forth, and anon the autumnal wheat begins to paint the field, and velvet leaflets to burst from purple buds, throughout the reviving forest; and then the mellow soil to open its fruitful bosom to every grain of seed dropped from the planter's hand, buried but to spring up again, clothed with a new mysterious being; and then, as more fervid suns inflame the air, and softer showers distil from the clouds, and gentler dews string their pearls on twig and tendril, did he ever watch the ripening grain and fruit, pendant from stalk, and vine, and tree; the meadow, the field, the pasture, the grove, each after its kind, arrayed in myriad-tinted garments, instinct with circulating life; seven millions of counted leaves on a single tree, each of which is a system whose exquisite complication puts to shame the shrewdest counting of the human hand; every planted seed and grain, which had been buried to the earth compounding its pious usury thirty, sixty, and a hundred fold,—all harmoniously adapted to the sustenance of living nature,—the bread of a hungry world; here a gilled cornfield, whose yellow blades are nodding with the food of man; there an unplumed wilderness,—the great Father's farm,—where he "who hoars the raven's cry" has cultivated with his own hand, his merciful crop of berries, and nuts, and acorns, and seeds, for the humbler families of animated nature—the solemn elephant, the browsing deer, the wild pigeon, whose fluttering caravan darkens the sky; the merry squirrel, who bounds from branch to branch, in the joy of his little life;—has he seen all this,—does he see it every year and month and day,—does he live, and move, and breathe, and think, in this atmosphere of wonder,—himself the greatest wonder of all, whose smallest fibre and faintest pulsation is as much a mystery as the blazing glories of Orion's belt,—and does he still maintain that a miracle is contrary to experience? If he has, and if he does, then let him go, in the name of Heaven, and say that it is contrary to experience, that the August Power which turns the clocks of earth into the daily round of a thousand and million scales, could feed five thousand in the wilderness!
